Remarks on board Ship
Young Phenix that sailed from
New Bedford Aug 16th 1853 on a
whaling voyage in the North Pacific
Ocean commanded by Captain
Charles Tobey.

Tuesday Aug 16th. 1853

Commences with fine weather with
the wind from the N.E at 9 A.M the
pilot came onboard weighed anchor and
stood out the bay at 2 P.M discharged
the pilot at 6 P.M last sight of the
land called all hands aft and shot the
watches it being my first watch
below I shall turn in and think of
home and that. I have left there and
thus closes one of the saddest days of
my life

August 20th

this day commences with a strong breeze
steering E & E under doubled reefed topmasts
middle part much the same we have had
bad weather ever since we sailed which
does the gran hands brick out at sunset had
very heavy thunder squall latter part the
weather was some better so ends

Dec 13th

this day commences with fine
weather steering by the wind heading
N N E employed in repairing a
boat and various other jobs at 11 AM
saw spern whales hoisted for them
the old man called them fin backs
and called the boats on board at 2 PM
proved them to be spern whales and
lowered four boats and gave chase struck from
the BB and above whale passed the line
struck again from the BB and cut the line
accidentally struck from the BB and drawn
struck from the Starboard Board and cut the line
accidentally struck again from the BB
and got stave but saved the whale
back line alongside but it was to heavy
to cut doubled ruffe the topsails and
and broad full hollie front along-
breeze steering by the wind heading
N N E was the unlucky day

GD

Tuesday. July 24th

This day commences with fine weather
ship lying at anchor in Shikleton at 8
AM got up my anchor and up the bay
we have been running around in the ice
and over to the Northern shore for the last
three weeks but have seen nothing lost one
anchor &c &c were now going to try on luck
in the bay at 3 PM came to anchor in
12 fathoms late part thick fog mostly

Ishanter Bay 1855

July 25th

thick fog at 8 am started the boats of
whalers returned without success

July 26th

thick fog all day got under weigh bound
further up the bay

July 27th

boat of whalers rising and foggy

July 28th

boat of us in the ice whalers saw a plenty
of whales struck from the W^o B and
drawed struck from the BB turned
him up and commenced towing boat
first struck fog so early

July 29th

first part rising and foggy at 10 AM got the
whole alongside and cut him in half part
fire so early

July 30th

first part foggy sent the boats of whaling
middle and left part fire struck from the
BB turned him up and anchored
him so early

July 31th

first part thick fog at 2 & the ice come
down upon of him and posted the anchor
road boat the anchor at 8 AM took
the whale to the ship and cut him
in half part fire so early

August 4th 1855

first part of this day thick fog at 8 AM got under weigh hoisted out of the bay middle and late part clear bound to the Taghlan Gulf

Aug 9th

first part fine at daylight found the ship in 4 fathoms. wind from the N.E at 5 AM hard up starting. At 8 AM saw whales lowered for them went up to one with the L.B but did not fasten at 11 AM come on board it being a hard rain storm and blowing heavy from the N.E headed of shore until 3 PM and then let go the anchor late part rainy and calm 10 end)

Aug 10th

first part thick hazing weather and a fresh breeze from the E at 5 AM got under weigh heading in shore late part bad weather let go the anchor in 8 fathoms 10 end)

Aug 12th

first part clear with a fresh breeze up under weigh saw plenty of whales but very elig. late part fresh breeze saw plenty of whales in shore but did not bow for them ship heading off and another land 10 end

Saghalian Gulf August 14th 1855
first part strong breezes saw a plenty of
whales lowered and struck from the
BB turned him up and he sunk
in 9 fathoms ran down to him
with the ship and hauled him
up and set him in little port
fire 10 ends this day

Aug 15th
bad weather all day.

Aug 16th

first part light winds and good
weather saw whale in shore lowered
and struck from the BB
turned him up and he sunk in
12 fathoms of water got the ship
under weigh and ran close to
the whale and let go the anchor
left the mate to lay by the whale
little part calm to end

Aug 17th

fine weather at day light saw the
boat with a flag set sent another
another boat but he had lost the
whale got the ship under weigh to
go and look for the whale looked
till 10 o'clock and give it up for
a bad job and a bad job it was to
the mate got drunk laid down
in the stern sheets of the boat and
went to sleep where he awoke up
the whale was gone middle and left
part fine to end

(37)

Boghtan Gulf 1855

Aug. 18th

first part fine saw whale lowered and struck from the Garboard boat turned him up at 4 P.M. took him alongside and went to stowing down middle port calm so early

Aug. 19th

fine weather cut the whale in half seen none since we struck him

Aug. 20

first part of this day is ahead thunder storm at 7 A.M. got under weigh heading of about middle port fresh gale lat. port much the same so early

Aug. 21st

fine weather sharp heading in shore saw whale but did not lower lat. port rainy ship at anchor so early

Aug. 22nd

bad weather employed in stowing down oil no whale

Aug. 23rd

fresh breeze saw whale lowered but without success lat. port this whale still in sight

Aug. 24th

first part fresh breeze lowered for whale but without success lat. port fine heading to the westward so early

Cruising 1855

Aug 26th

first port strong breeze steering
N^W bound to the Islands
middle and latter port fresh
gale from the N^W wind ship
hove to under short sail

Aug 30th

fine weather have been to the N^E
of the Islands to day spoke the ship
Mary Frazier just out of the bay she
says whales are scarce in these so
here we go to the gulf again
with a fair wind

Aug 31st

first port fair at daylight saw a
ship and found the ship in the gulf
saw whale lowered but no luck
latter part ships lying at anchor

Sept 1st

fair at daylight got under with wind
around in the gulf all day N^E E^W
but saw nothing at night hauled
up for the Islands again with
a light wind from the southward

Sept 8th

first port fair near cruising to the N^W
of the Islands we have seen some whales
but they were going fast middle port fair
spoke ship Nantucket latter part fresh
breeze and foggy

(304)

Cruising 1855

Sept 9th

first part fresh gale and a thick fog
middle part much the same at 2 P.M.
saw the land had up bound into
Fiction at at 8 P.M. come to under
the SW end of the island so early

Sept 10th

got under weigh and went into the
harbor to get wood got no wood and
and some boat charts

Sept 11th

calm. felt first strong breeze from
the westward so early

Sept 12th

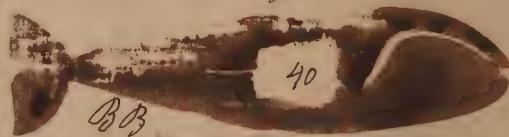

first part light winds middle part
much the same at 9 P.M. got under
weigh bound up the bay so early

Sept 13th

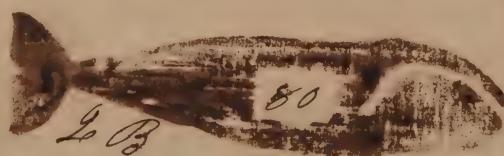

first part calm sent two boats up the
bay at 2 P.M. sent another got a whale
to the BB and W.B. at sunset the
ship came to anchor in the middle of
the bay the mate returned on board
with the other boats are still towing
this whale so early

Charles Bay Sept 14th 1855
first part fresh breeze at daylight
got the ship under weigh and took
the whale along side and commenced
cutting middle part calm at 2 P.M.
saw the B.B. and W.B. of whaling
latter part calm boats returned without
success so early. Mr Allen sick

Sept 15th
fresh breeze but not thick and
smoky weather got under weigh
and steered to the S.E. saw whale
sent up the boats and struck and killed
one from the B.B. took him alongside
and cut him in so early
Mr Allen on duty

Sept 16th
first part calm sent three boats of
whaling struck from the W.B. and
draved struck from the G.B. took him
to the ship struck from the B.B.
took him took him to the ship
struck from the G.B. again turned
him up and he sunk latter part
calm the Garboard Boat lying by
her whale the rest employed in
cutting so early

(41)

Shantz Bay Sept 17th 1855
fine weather hauled the whale up
took him alongside and cut him in
so ends this day

Sept 18th

fine weather not so whale, took the
anchor and went farther up the bay

Sept 19th

fine weather two boats whaling the
rest employed in boiling and stowing
lubber from the boats returned named

Sept 20th

first part raining the boats of whaling
at 10 AM it came on to blow very
sudden three of the boats came on board
but the 4th Boat could not fetch the
ship latter part already gale the last
boat still absent

Sept 21st

after gcb from the 4th W employed
in boiling and stowing down oil the
want boat still absent so ends

Sept 22nd

afresh gale from the 4th W employed
in stowing down middle and latter
part short the same the want boat
not returned yet

Whalers Bay 1855

Sept 23rd

first part fresh gale got under weigh
to look for the waist boat at 11 abdth
moderate the waist boat came along no's
and went off again after whale struck
from the G B and had to cut the
line got foul struck again from the
Bow Boat turned him up an anchored
him it came on to blow and rain
so we left the whale and went on
board latter part bad weather so early

Sept 24th BB

fine weather lowered for whale and
struck from the G B turned him
up took him to the ship and cut him
in so early

Sept 25th G B

first part calm at 8 ab saw the whale
anchored towed him to the ship and
cut him in latter part calm so early

Sept 26th

light winds but thick smoky weather
sent three boats of whalers at 7 P.M.
the larboard and waist boat returned
the bow boat could not find the
ship latter part calm so early

33
Shanty Bay 1855

Sept 27th

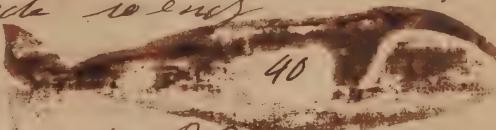

first part calm sent of the boats
whaling saw the bow boat who had
been in shore all night at 8 AM
she struck ashore got capsized lost
the whale and the boathook was
drowned John Smith a colored
man belonging to Philadelphia aged
35 years at 5 PM the boat
struck turned him up at 9 AM took
to the ship latter part fine wind

Sept 28th 1855

first part bad weather sent the boats
of whaling struck from the bow
boat turned him up and anchored
him and left the bow boat lying
by the whale latter part about shore
storm the ship under weigh working
up to the whale so end

Mr Allen sick

Sept 29th BB

first part a hard snow storm at 2 AM
got the whale to the ship at daylight
commenced cutting two dead whale sent
a boat and hooked on to him at 2 PM
finished cutting took the anchor and went
after the other whale took him alongside
and cut him in latter part about rain
storm and fresh gale from the N E

Mr Allen sick

Day up

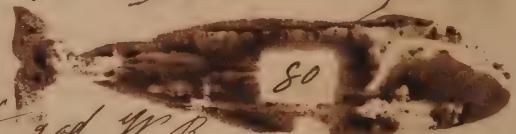

Whalers Bay 1855

Sept 30th

strong breeze and raining all day

Oct 1st ~~Sept 30th~~

fine weather two boats of whaling struck from the waist boat turned him up and took him alongside and cut him in latter part fine Mrs Allen on duty

Oct 2nd WB

fine weather sent three boats of whaling struck from the WB turned him up at sunset took him alongside latter part fine sonny

Oct 3rd

fine weather employed in boiling and stowing two boats of whaling at night they returned without success so early

Oct 4th

first part fine employed in boiling latter part a fresh gale so early

Oct 5th

bad weather lowered for whaling but without success so early

Llanter Bay 1855
Oct 6th

first part fresh breeze with rain took
the anchor to leave the bay was wholly
hove to for them but without success
at 7 P.M. came to anchor with a high
tide latter part rainy finished hoisting gear

Oct 7th

first part light wind with rain got
under weigh bound to Picklestone
at 12 M^o it came on to blow very
hard could not fetch the harbor
so we run down under the lee of the
island and came to anchor part still blowing

Oct 8th

first part fresh breeze middle part fine
employed in stowing down oil barrels part
took the anchor and went round to the
harbor 10 m^o

Oct 9th

first part fresh breeze employed stowing
of the oil barrels part a heavy gale ship
lying with two anchors ahead 10 m^o

Oct 10th

first part blowing heavy winds and
latter part moderate got under neighbour
further in at 5 P.M. come to in 7
fathoms 10 m^o

Chambers 1855

Oct 11

fine weather employed
in wooding and watering.

Oct 12th

first part fine employed
in wooding and watering
latter part blowing and snowing
like the devil and cold enough
to freeze him so much

Oct 13th

still blowing and snowing very
hard

Oct 14th

much the same

Oct 15th

first clear with a fresh breeze
from the westward got under weigh
bound to the S. I. middle part
light winds and a hard snow
storm latter part fine
steering to the eastward so much

Oct 16th

first part strong breeze middle
part much the same steering
E by S 11 PM took in the fore
and main topsails clewed down
the main to close reef and it
bated and blew away latter part
at a very heavy gale running under
bare poles so much

Bound In 1855
Oct 21st (47)

first port fire left the Cockatoo
sea came out through the 50 passage
in company with 55 ships both port
fresh breeze no end

port both port fire the ship leaking
4500 cwt. a day

Nov 14th

fire water got under weight bound
to Oahu the ship has increased
the leak she leaked 5,000 cwt. in
24 hours both port fire so end

Honolulu No. 9. 1855

Nov 15th

took a pilot and went inside
and moored ship 100yd

Nov 25th

fire-watches the men on liberty
held a survey on the ship have
got the bear out Oh! Dear!!!

Nov 30th

on moored the ship and hauled
along side of the wharf to discharge

Dec 8th

fire-watches have sent down the sport
and have got every thing out but the
oil to day we hauled alongside of the
ship Massachusetts to discharge oil
so early this day

Dec 12th

fire employed in slushing oil
discharged the mate

Dec 19th

have filled up the massachusetts and
to day we have hauled back again to
the dock to finish discharging so early

4
St. Islands 1855 & 1856

Dec 26th

we hove the ship down to day and
examined her bottom found the Cockpit
rotten round her stem reposed and
righted the ship again so early
Mr. Mellon sick

Dec 27th

began to stow but found her still
leaking so we give it up and get ready
for leaving down again

Mr. Mellon no better

Dec 28th

hove down and found another leak under
the step of the forecastle at righted up
again but found that she still leaked

Mr. Mellon no better

Dec 31st

hove her down twice to day but have
not found the leak

Mr. Mellon no better

January 2nd 1856

hove her down found the leak righted
her up got ready for stowing
Mr. Mellon no better

Jan 8th

five employed in stowing the hold
Mr. Mellon on duty again

Se Islands 1856

Jan 15th
fire got every thing on board and
hauled off to our moorings

Jan 31st
All ready for sea have got all our
crew on board including a mate and
third mate at 2 P.M. the steamer
hooked on and towed the ship outside
the bar late fort light wind

February 3rd

at 5 P.M. the Captain came on
board and with him Mr. Harry
bound to Maohai late fort light
windy no endy

fine weather got whale to the BBout

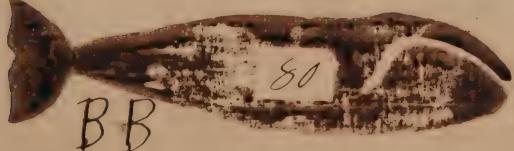

BB Sept 2nd
fine boat af but no luck

Sept 3rd

much the same

Sept 4th

blowing and raining like hell
got a whale to the BBout

Shawters 1856

Sept 5th

fine weather boats of whalemen but
no luck

Sept 6th

much the same

Sept 7

fine three boats right hawking
but no luck

Sept 8th

much the same

Sept 9th

Ditto

Sept 10th

the same

Sept 11th

no blubber nor no whale

Sept 12

much the same

Sept 13th

bad weather boat on board

Sept 14th

fine again boat whaling but no luck

Sept 15th

alm struck a whale from the
main boat and saved

Sept 16th

strong breeze struck from the
starboard boat and boat alone
and the whale to

Islander) 1856

Sept 24th

first frost since the ship went weigh
we have seen a very few whalers the last
week what we have seen has been very
busy we are now bound into the harbor
after wind and water late part when
stop at anchor today

Sept 25th

first frost light winds got under weigh
located in at 10 AM came to in 5
fathoms smooth and latter part wooding
watering no end

Sept 26th

fine employed in wooding and
watering no end

Sept 27th

very bad wind rain

Sept 28th

fine wooding and watering

Sept 29th

Sunday nothing done

Sept 30th

fresh breeze from the SSW
employed in scraping bone

Oct 1st

fresh gale from SSW
employed in scraping bone etc. part
a small storm

Baund Game 1856

part much the same employed
in the ships duty so end

Lat 42° 00' S
Long. 43° 10' W

March 6th

first part light winds from the S E
employed in fitting the rigging and
various other parts middle part much
the same to say we cross the line
at P.M took the wind from the
N E with rain rapidly at 4pm right
carried away the jibboom cast off hand
to clear the wreck got all clear and
set the watch below so end

Lat 08° 16' S
Long. 39° 39' W

March 14th

first bays from the E N E tarrying
at 45° 30' middle part much the
same employed in fitting the
after part of the ship outside and
setting out a new jibboom late
part moderate have had very strong
N E trades since we left the bay

Lat 17° 16' S
Long 46° 46' W

Bound Home 1857)

March 20th

light wind from the S^E
steering S^EW middle front much
the same employed in putting
ship and sending out the full load
soon late part took a gale

Lat 27° 14' N
Long 57° 47' W

March 26th

first part strong breeze from the from the
westward at daylight close reefed the fore
and main topsails and reefed the
main sail we have had head winds
and calms the last three days been
employed in the ships duty middle
front calm employed in throwing
the try works overboard at 4th Ab had
a very severe thunder storm took every
thing but a close reefed main topsail
late part took breeze from the
SW steering S^EW so ended

Lat 29° 33' N

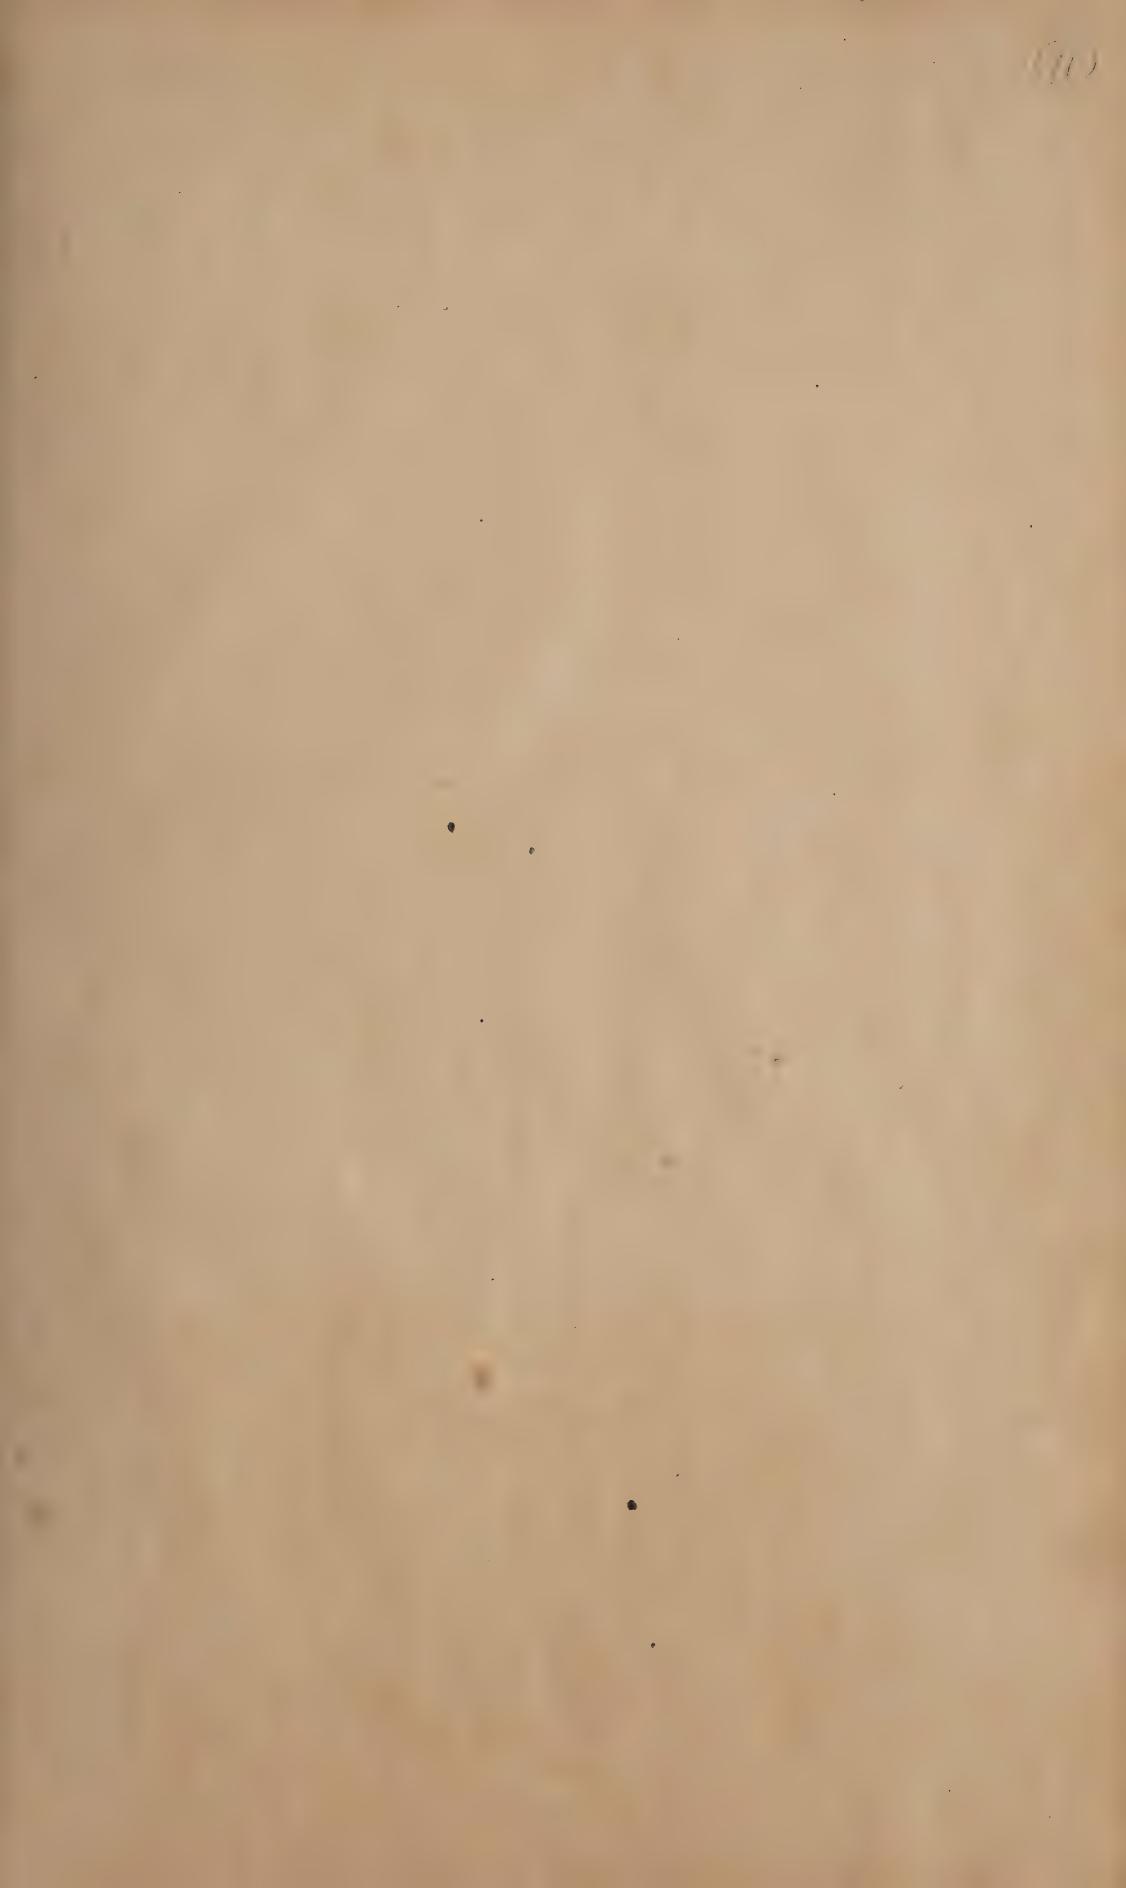

April 1st Long 65° 50' W

first part calm at 4 P.M. took a fresh gale
from the SW took in all sail and had to
middle front calm have had a lot of
wind and weather the last week a head
wind most of the time late part
late part a light breeze from the SW

Lat 32° 53' N
Long 67° 50' W
